GENERAL INFORMATION

SALE LOCATION: Augusta Expoland, 277 Expo Road, Fishersville, VA 22939

SALE HEADQUARTERS: **Comfort Inn**, 1302 Richmond Ave., Staunton, VA 24401, phone: 480/568-6951; **Quality Inn**, 640 W Broad Street, Waynesboro, VA 22980, phone: 540/942-1172; **Sleep Inn**, 222 Jefferson Highway, Staunton, VA 24401, phone: 540/887-6500; **Comfort Inn**, 15 Windigrove Drive, Waynesboro, VA 22980, phone: 540/932-3060

SALE MANAGER: Greg Deakin, Banner Sale Management Service, P.O. Box 500, Cuba, IL 61427, 309/785-5058 or 309/338-3294.

SALE AUCTIONEER: Steve George, OH; 419/306-1144

EVENT SCHEDULE: **Thursday, July 19** - Sheep Check-in by 12 p.m., Expo Education Day 1, Dinner. **Friday, July 20** - Expo Education Day 2, Lunch and Dinner, Free Ice Cream Social in the barn at 7:30 p.m. **Saturday, July 21** - Katahdin Expo/National Sale at 11:30 a.m.

SALE ORDER: Rams followed by ewes.

RINGMEN & MAILBID ASSISTANCE: Sale Manager; the consignor of your choice; Joe Hampton, 704/880-2488; Mike Jones, 704/773-3612.

SALE PHONES: 309/338-3294 or 309/338-8372.

MAIL BIDS: If you cannot attend the sale in person, a number of individuals will be able to handle your bids. These include the Sale Manager, Greg Deakin, the auctioneers, ringmen and judges. All mail bids must have pre-approval by Sale Management prior to the start of the sale. All mail bid animals must be paid for within 5 days or assessed a 5% fee. The above Buyer Premium applies to all mail bids. Banner Sale Management advises that you contact us well in advance of the sale if you are considering using a mail bid at this sale.

ONLINE BIDDING: Any questions concerning LivestockBuyer.com should be directed to 336/363-4639. **ONLINE BUYER REGISTRATION IS REQUIRED PRIOR TO 4:00 PM FRIDAY, JULY 20.**

SALE VETERINARIAN: Will be on site during the sale; requires complete address and phone number to issue health paper.

HEALTH PAPERS: Your local or state veterinarian should be able to update you concerning the health requirements for sheep entering your state. All sheep sold must be in compliance with current Federal Scrapie Regulations. The sale veterinarian will prepare standard, interstate health papers for transportation between states, but it is the buyer's responsibility to be cognizant of and adhere to the entrance requirements of his own state. When entry permits are required, this can often be done prior to your arrival at the sale by contacting your state office. Your local veterinarian can often help facilitate this process.

INFORMATION RETAINMENT COMPLIANCE FEE (IRCF): There will be an IRCF of \$10 per head sold on all animals added to the buyer's settlement at this sale. Banner Sale Management maintains records on all animals sold through the

sale ring for a minimum of five years to be in compliance with regulations as set forth by the United States Department of Agriculture.

NOTICE: Neither sale management, sale sponsors nor consignors to the sale assume any risk or liability in case of accidents of any kind or losses of any kind to any person or persons in attendance at the sale.

TERMS AND CONDITIONS

TERMS: Cash, check or credit card payment on Sale Day. A 4% convenience fee will be charged for credit card payment. All purchases are to be settled with the clerks immediately following the sale and before the sheep are removed from the premises unless arrangements and approval have been made with the Sale Manager prior to the sale. The auctioneer's decision is final on any disputed bids. All animals are at purchaser's risk as soon as sold. A 20% surcharge will be assessed to any insufficient funds check issued. Buyer shall be responsible for any and all costs of collection, including attorney's fees. Institutions may pay by requisition. Foreign buyers must pay in U.S. funds. Registration papers will not be transferred to the new owner until paid in full.

SALE GUARANTEE

EXCEPT FOR THOSE STATED IN THE BELOW GUARANTEE, THERE ARE NO WARRANTIES, EITHER EXPRESSED OR IMPLIED, AS TO THE MERCHANTABILITY OF FITNESS FOR A PARTICULAR PURPOSE WITH RESPECT TO THE SHEEP BEING SOLD IN THIS SALE.

THE WARRANTIES AND GUARANTEES SET FORTH IN THE BELOW GUARANTEE ARE IN LIEU OF ALL OTHER WARRANTIES, EITHER EXPRESSED OR IMPLIED, AND THE REMEDIES PROVIDED THEREIN SHALL BE THE SOLE AND EXCLUSIVE REMEDY OF THE BUYER, OR ANY PARTY CLAIMING THROUGH THE BUYER, FOR ANY BREACH OF WARRANTY OR GUARANTEE THEREIN PROVIDE, AND ALL OBLIGATION OR LIABILITIES.

1 - Every ram and ewe sold will be guaranteed as a breeder if properly handled. It shall be the responsibility of the buyer to return the non-breeder to the seller in acceptable breeding condition. The seller, after a fair trial, and the animal is found to be a non-breeder, shall have the privilege of replacing the ram or ewe with one of equal value to the satisfaction of the seller, or refunding the purchase price. This guarantee shall not apply the first year to any sheep that are shown subsequent to the date of the sale. All ewe lambs are exempt from the breeding guarantee the first year.

2 - Notification of non-breeder rams must be made to the seller prior to October 1st following the sale; notification of non-breeder ewes must be made to the seller prior to April 1st the following year.

3 - This guarantee shall constitute a contract between the buyer and the seller only, and no other parties assume any liability, legal or otherwise, expressed or implied.

4 - Neither the Sale Managers nor sponsoring organizations can or will assume any responsibility as to the authenticity of the pedigrees, bloodlines, or information provided in the sale catalog, pen cards or otherwise, and the subsequent genetic performance of any sheep purchased. All such information must be accepted at face value. Any statements or information given sale day supersedes cataloged information. Any special guarantees or claims offered by individual consignors is strictly between the consignor and the buyer, and will not be enforced by the Sale Managers or the sponsoring organization.

We've been fortunate to have very brisk ewe sales off the farm. In order to sell a second ram, we'll have to select from our latest-born ewe lambs for 2018. Sire just recently sold to Lauden Acres of Dalmatia, Pa. Maternal brother to the ram that Jay Greenstone and David Redwine, Va., purchased for \$2800 at 2016 Midwest Sale. This lamb will be colorful and an excellent female.

GLOSSARY:

EBVs - Expected Breeding Values are provided by the National Sheep Improvement Program. The genetic evaluation is overseen by Dr. Ron Lewis at University of Nebraska, Lincoln. EBVs evaluate relative performance of animals raised in different flocks and different years. By evaluating "relative performance" and the use of advanced mathematical and statistical analyses, EBVs are more accurate at determining the relative genetic merit of animals. This helps breeders factor out the environmental differences including but not limited to nutrition, number born/reared, heat and humidity. EBVs are a more accurate estimate of genetic potential for growth than raw weights, adjusted weights and mature size.

Using EBVs - A simplified approach is that an animal with a value greater than zero is predicted by NSIP (which uses the standard genetic evaluation procedures used by all livestock species) to be above the breed average for that performance trait. Selecting animals with positive values for growth and milk traits will identify animals that are predicted to be above average for the breed for those traits (using the best technology available to the livestock industry).

Selecting animals with EBV Definitions:

Bwt - 60-Day Weaning Weight EBV provides an estimate of birthweight of a lamb.

Wwt - 60-Day Weaning Weight EBV provides an estimate of pre-weaning growth potential.

PWwt - The 120-day Post-weaning Weight EBV combines information on pre-weaning and post-weaning growth to predict genetic merit for post-weaning lamb weight.

MWwt - Maternal Weaning Weight EBV estimates genetic

merit for mothering ability. This EBV mainly reflects genetic differences in ewe milk production, but other aspects of maternal behavior are also involved. A higher number generally indicates more milk production and/or higher quality milk.

NLB (%) - Number of Lambs Born EBV evaluates genetic potential for prolificacy. This EBV is expressed as numbers of lambs born per 100 ewes lambing. A higher number will mean more multiple births while a number near zero will select for an average of twins in adult ewes.

NLW (%) - Number of Lambs Weaned EBV evaluates combined ewe effects on prolificacy and lamb survival to weaning. The NLW EBV is expressed as numbers of lambs weaned per 100 ewes lambing.

WFEC and PFEC - Weaning Fecal Egg Count and Post-weaning Fecal Egg Count. Evaluates genetic merit for parasite resistance based on worm egg counts. Low numbers indicate fewer parasite eggs and less loss due to parasites.

EPT/USA Maternal/Hair Index - The Ewe Productivity Index (%) combines EBVs for NLW, NLB, Wwt & MWwt into an index designed to maximize pounds of lambs weaned per ewe lambing.

PFAT - Post-weaning Fat. An indicator of genetic differences in carcass fatness between the 12th and 13th ribs. Negative values indicate carcasses that are leaner.

PEMD - Post-weaning Eye Muscle Depth. An indicator of genetic differences in carcass muscling. It is based on ultrasonic measurements of the depth of loin eye muscle adjacent to the 12th rib.

PSC - Post-weaning Scrotal Circumference. A PSC with positive value increases reproductive performance in the ram.
